

## Advanced MarketPlace HP Profile

HP Offers Business Technology Solution to Help Customers Align IT with Business Objectives

**A**dvanced MarketPlace is a market leader and trusted advisor in IT Infrastructure Management Consulting with over a decade of experience in transforming client business environments. Advanced MarketPlace's senior consulting expertise includes: IT Service Management, IT Asset Management, Endpoint Management and ITIL focused Business Process Consulting. Our organization employs proven methodologies and partners with world class organizations to deliver value to our clients. Business Process consulting, ITIL practice assessments, implementation services, training and support are all solutions we offer our clients. Advanced MarketPlace has been selected as the global training partner for HP Service Manager 7 software.

Our company is headquartered in Tampa, FL with sales offices in Tampa, Atlanta, and Baltimore. Technical Consultants are located throughout the entire half of the US and can be deployed world-wide. With over 12 years of Professional Services and Project Management experience, the Advanced MarketPlace reputation within the legacy Peregrine space is impeccable. Our long-standing track record of successful consulting engagements and implementation projects has created a long list of reference customers.

As a legacy Peregrine partner, our experience has covered over 12 years and 350+ engagements. Advanced MarketPlace has been implementing Service Manager (formerly ServiceCenter) since version 1.4 and has moved many of its customers through each version to ServiceCenter 6.2 and the newest Service Manager 7.x. We also have strong experience with Peregrine's Get-It products as well. Many of our ServiceCenter Consultants have been help desk agents and technicians in prior positions and bring a practical experience to their consulting approach as well as ITIL Certifications. We place a high priority and focus on having our consultants maintain the highest level of technical certifications in their areas of expertise.

Advanced MarketPlace has been implementing Asset Manager (formerly AssetCenter) and asset management solutions for almost as many years. Our sales team & consultants understand the complex challenges associated with projects that impact many different parts of an organization and the business processes that are impacted. We work with our clients to deliver not only technology solutions, but solutions that meet or exceed business objectives as well.

Advanced MarketPlace, Inc. also has an Endpoint Management (Desktop & Server Management) practice. In the past, Advanced MarketPlace has leveraged Peregrine automation products and other partners to deliver these solutions. Advanced MarketPlace has been rapidly coming up to speed in the delivery of HP's Configuration Manager (Radia) products. Other areas of focus include Identity Management and Operations.
